# TO STOP A FORECLOSURE.

Application Made in a Mortgage on

Saloon Fixtures. The David Stevenson Brewing Company made an application to-day before Judge Dugro in the Superior Court for an injunction to restrain Isaac Lewis & Sons, glassdealers, from foreclosing a mortgage given by George J. Sawyer to Caspar Iba on the saloon fixtures at 124 Bleecker street, which mortgage was assigned by Iba to Lewis & Sons.

The brewery people claim that a mortgage executed by Sawyer and held by them to secure payment of a beer bill was a first mortgage on the fixtures, not withstanding the fact that the mortgage held by Lewis & Sons was filed in the Register's office before the mortgage was given to the brewery.

On the same day Judge Alfred Steckler, counsel for Lewis & Sons, claimed Iba's mortgage was a first lien and a purchase-money mortgage to secure payment to Iba for a balance of \$1,025 due on the fixtures, and that the brewery people's mortgage was in fact a second mortgage, and that their claim was merely an afterthought when they found that the fixtures had been taken out of the saloon under foreclosure by Lewis & Sons.

The Court reserved decision.

> Six policemen had a pitched battle this morning with a man, thought to be a maniac. It took place at Fifteenth street and Second avenue, and lasted

over half an hour. The man is a veritable giant strength and stature. Before he was subdued two of the policemen had their clothes torn from their backs, one had a badly cut lip and all bore marks of the combat in the shape of bruised faces and bloody clothes. The man gives the name of John Otto, says he is twenty-six years old

and a porter.

It was just after 3 o'clock Policeman John Magner, of the East Twenty-second street station, reached the southeast corner of Twenty-second SHANGHAI, July 28.-In addition to street and Second avenue. around and uttered a shriek.

and he looked intently at the policeman and the woman. Magner went up to him.

"Who are you?" he said gruffly. In another instant the policeman was lying on his back on the pavement and the big man was on top of him. That was the beginning of the battle. Over and over the two rolled, but the policeman soon saw he was no match for the man. Time and time again the officer was struck in the face and choked. He called loudly for help, but the street was deserted, and there was no response to his cries.

At last the policeman was lying flat on his back, exhausted, with the man sitting on top of him, his fingers choking Magner so he could no longer shout. Speaking of it afterwards, the policeman said: "They were fingers of living steel, that every second tightened about my throat."

Magner would undoubtedly have been strangled had not Policemen Roesch, Eaton and Wren come running up the street. Then the battle was renewed. But the man proved a match for all four of the policemen.

They were soon forced to defend themselves against the atacks of the maniac, for it was impossible to subdue him. Three times he was hit in the head with one of the policemen's short clubs, but he fought on, the blood streaming down his face, covering the policemen as they fought. The four kept up a continual outery, but the maniac did not utter a sound.

All the time the strugle was going on the young woman stood near by and looked on.

When the cries continued, however, they deserted their posts and ran to the assistance of their brother officers.

Now there were six against one. It was terrific odds, and the man, weak from the loss of blood, was finally overpowered.

Then five of the policemen held him down, while Magner telephoned for an ambulance. It was feared the man been badly hurt, the policemen certainly were.

The man lay quietly enough until the ambulance came. Then he was manacled, He was considered safe enough then, for a big leather belt was strapped about his waist, to which the manacles were attached by chains. "Can you take him alone?" asked a policeman.
"Oh, he's all right now," answered the surgeon. Just then the driver of the ambulance uttered a cry, and disappeared from his seat. He was in the bottom of the vehicle, with the maniac's terrible fingers about his throat. The man had broken the chains that held him.
Immediately, the almost exhausted policemen were in the ambulance, holding the man. His wrists had the steel bands on them now and he could not struggle as he did before, but he was not easy to conquer.

It was decided that three policemen should attend him to Bellevue Hospital. All the way the man fought, and at the hospital he was put in a straightiscket.

The policemen had their injuries looked after. Magner's hip was cut and his face swelled. The others were scratched and bruised.

One of the sleeves had been torn from Eaton's coat. The uniforms of the other three men were sad wrecks.

When the man had been taken to the hospital the woman disappeared. She had stood silently by until the end. One of the policemen thought he had seen the man before, but he was not sure. Every effort was made to find her without success. It is believed that she knows who the man is. He would say nothing at the hospital after giving his name.

Otto was seen in the Prison Ward at Bellevue Hospital this morning. His head was swathed in bandages and he appeared to be dazed.

He admitted to an "Evening World" reporter that he had some trouble with an unknown woman in a saloon in Second avenue, with whom he passed a "icke. She siruck him, he said, and he pushed her down.
